

The DAISY Award

FOR EXTRAORDINARY NURSES

IN MEMORY OF J. PATRICK BARNES

We are excited to highlight that our second round DAISY Award winners were granted to Ms. Lezlie Woods, RN, from Suite N (Pediatric Oncology), and Ms. Avalon Adams, RN, from Nursing Station 81 (Medical/Surgical). These Registered Nurses were awarded in their respective clinical areas by our Chief Executive Officer, Dr. David Berger and our Chief Nursing Officer, Ms. Cheryl Rolston.

The DAISY Award for Extraordinary Nurses is an international award program specific for licensed and registered nurses – it is the epitome of nursing recognition.

The award celebrates the

extraordinary clinical skill and compassionate care provided by nurses. What makes this award so honorable is that the nominations are received by our patients and their loved ones attesting to the amazing care provided by our nursing staff.

During the recognition ceremony, Ms. Woods and Ms. Adams were presented with a bouquet of daisies, freshly baked cinnamon buns to share with friends and colleagues, and the “Healer’s Touch” Sculpture.

This symbolic sculpture represents the bond between nurses and their patients. The sculpture is signed by artists of the Shona Tribe in Zimbabwe, and are hand carved from Serpentine mineral rock.

Please join us in congratulating Ms. Woods and Ms. Adams on such an extraordinary achievement. We are proud of their dedication, commitment, and compassion they have demonstrated towards the well-being of our patients.

CONGRATULATIONS!
